

## SCENE SHIFTS IN STRUGGLE FOR THE SHERIFF'S OFFICE

**Hubbell Counsel Would Force Prichard's Hand.**

**SEEK TO CONTINUE QUO WARRANTO WITHOUT ATTORNEY GENERAL**

As a result of the motion filed yesterday morning by counsel for T. S. Hubbell in the quo warranto proceedings by which Hubbell seeks to regain possession of the sheriff's office, the scene of the action is likely to shift and Attorney General George W. Prichard is likely to appear as one of the principal figures in the struggle which has now been prominently before the people of the territory for nearly three months.

The attorney general by his letter filed for record Tuesday, declined to allow his name to be used by counsel for Hubbell in the quo warranto action. This refusal was made with the condition that the attorney general would act provided similar actions were brought in behalf of Frank A. Hubbell, and Estavie Vigil, who are in the same position as Hubbell, or out of office.

This condition, however, counsel for the Hubbell and Vigil do not care to meet and from present indications it is the sheriff's office case or nothing.

Yesterday counsel for Hubbell filed a motion before Judge Abbott, asking leave to continue the action in quo warranto without the leave of the attorney general. Well informed lawyers declare that the permission of the attorney general under the law regulating the bringing of quo warranto, is necessary to that action. The matter is before Judge Abbott now, and the motion raises directly, an issue between the former sheriff and the attorney general, who will be called upon by the motion to defend his position.

This last phase of the sheriff's office matter is likely to delay for a considerable time the action on the original action in quo warranto, if it does not end that action entirely. The court will be occupied in the near future with the business of McKinley county, and on returning from Gallup, court for the conclusion of criminal business in this city will be in order.

**Criminal Docket.**

Judge Abbott yesterday gave orders that all citizens and others interested in the cases still pending on the Bernalillo county criminal docket be notified at once that this docket will be called on the opening of court Friday morning. At that time the criminal cases now pending will be set for trial. The criminal docket was to have been set for trial yesterday morning, but owing to a misunderstanding a number of attorneys interested failed to be present and the call was postponed.

**None to Ask for Change.**

It is now definitely stated that when the McKinley county criminal court opens next Monday, W. H. Hulvey, attorney for Claude Doane, charged with the murder of Walter Lyon, will ask for a change of venue for their client. The evidence against Doane is growing stronger every day, new facts and new evidence cropping up with every turn of the officers in the neighborhood of the scene of the crime. It is stated that a trial in McKinley county would undoubtedly result in a conviction, the same having been widely discussed. As a result the case is very likely to be heard here unless as has been reported, Doane asks and is allowed to plead guilty.

**Meets Death in Mine Shaft.**

Peter V. Sorensen, a man well known in this country, and beloved and respected by all who knew him, died at the Mercy hospital last evening about 5:30 o'clock as the result of an accident in falling down the shaft to the Sultan mine, a distance of about 50 feet. He had been working last night the Prospect Journal-Miner. He came to Yavapai county some years ago from Utah, where some of his relatives reside. He was aged about 25 years, and while following the vocation of a miner, received the injuries that resulted in his death.

It appears that he was putting new timbers in a shaft about 50 feet in depth, and had a platform on the shaft swinging in a lateral attachment, which he had not lower after sending his helper after some lagging.

While his helper was gone, the platform, in some manner not known, tilted to one side and precipitated him to the bottom. When the helper returned, he heard Sorensen groaning at the bottom of the shaft. The supposition is that he came out of the shaft to loosen the ropes necessary to lowering the platform and either slipped into the shaft or got on the platform after loosening the ropes, which tilted and threw him to the bottom.

**No Poison in Chamberlain's Cough Remedy.**

From Napier, New Zealand, Head: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in that market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine company, Des Moines, Iowa, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had; and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. When taken in time it prevents pneumonia. This remedy is for sale by all druggists.

### GOOD FOOTBALL FOR SATURDAY AND SUNDAY

**VARSITY AND INDIANS AND CITY TEAM AND LUMBERMEN WILL MEET ON GRIDIRON.**

The Varsity football eleven are putting in hard practice every afternoon on the varsity grounds preparatory to the big game with the Santa Fe Indians in Tradition park next Saturday afternoon. The Indians have learned that the Santa Fe team average 155 pounds in weight, being much heavier than the Albuquerque boys. The latter, however, expect to make up in size and quickness the disadvantage in weight. There will be a hard fight, and the game is expected to be one of the best of the season.

The twice postponed football game between the Albuquerque Athletic association and the team from the American Lumber company will be played this afternoon, if nothing happens to prevent it, at Sandia Park at Tradition park. The heavy city eleven and the lumbermen are both making preparations for a battle royal and the game should be an exciting one.

Adulteration goes full length in spices and flavoring extracts—you think it isn't worth while to cheat in such trifles—four-fifths of "vanilla" is tonka; cost's one or two cents for "\$1-worth". Schilling's Best are entirely pure; at your grocer's.
